SILT PLAN : 30,000 YEARS OLD COLLOID FRESHWATER SEDIMENT

Ageless commonly used to describe the appearance of women who did not change after years. But in reality, people that look youthful is limited. After thorough research and hard work, 'Skin Guard' expert researchers had successfully produce a skin care product that can rejuvenate – **Natural Rejuvenate Mask**.

This product contains centuries freshwater lake sediments that rich with the elements, such as humid acid, alkyd, growth factors, high quality phospholipid, fatty acid polymer, 24 kinds of amino acids, glycans, Vitamin B1, B6, B12, D, A and Carotenoid E, pectin, soluble silicon, and mineral compounds (e.g. Calcium, iron, sulfur, magnesium, copper, manganese, iodine, vanadium), and etc. All natural raw materials are found after anaerobic sediment. Material sources are very valuable and can't comparable by other ordinary mask. In addition, this product also contains Oligosaccharides from Cichorium Intybus Roots "Tens' up™" which can tighten the skin immediately and rejuvenates. It also contains seaweed, other plant extract, natural moisturizing factor (NMF) and other valuable raw materials. Therefore, the use of Natural Rejuvenate Mask can restore youthfulness regularly.

Direction: Clean face with Natural Seaweed Facial Cleanser, the place appropriate amount on palm, using brush or with fingers. Dab the mask evenly on face and let off about 45 minutes to 2 hours, then rinse off with warm water.

Tips: Cause of this product has a very strong detoxification impact, and able to remove all accumulated residual toxins dirt, users may encounter the acne appearance problem, but just confidence in this product and continue using it, after some time, friends around you will definitely be surprised with your skin condition. If having acne, this product also can be applied to the area and will recover after two or three days.
