

## Dowsing Rod

Originated in the 15th century in Germany, some friends from feng shui geographical boundaries called divining rod, find the dragon stick, dragon probe needle and so on. This is done by using the body's sensitivity that such subtle, delicate sensors, through the reaction stick, swing, rotation and other, putting out become a visible, regular signals, people will be able to learn from the right message, engaged in tracing, looking for things, mining water, lode, monuments and other divination work, on behalf of a number of anomalies and accurate use by the army to find mines. The universe is a large magnetic field, now everything are with charge, including crystal, jade, stone and even the Antarctica, the Arctic of the earth are the large magnetic field, due to the Earth's rotation and orbit around the Sun will generate a strong charge (as the generator high speed operation to generate electricity), agglutination charge that generate by the Earth's rotation and orbiting is called magnetic gravity. Beyond these effects, the dowsing rod even can detect the safety of food and supplies, in the reaction cosmic energy field that nature, natural substances will make the dowsing rod to separate to the left and right, the chemicals that impact the health will make the dowsing rod get together, this is called the positive energy and negative energy, you can use dowsing rod to detect that the products you are using whether is natural for positive energy or negative energy for unnatural, with the dowsing rod, any unnatural products are clear evidence!
